

## **Note on Appropriate Materials.**

This is dubbed “literature absolut”. There is NO plot. There are no attempts at grandeur. It’s largely self-effacing and satirical. Please keep that in mind.

But you DO have to read the whole thing to understand it...kind of like French film.

At the end of this document, if you STILL don’t understand it. I’d recommend trying to find it as an e-Book on Amazon (if I decide to make it into an e-Book), – downloadable and sharable for a mere \$2.99; or e-mail me and request that I pursue some of these ideas a bit more.

I don’t really want to. That’s why this document is bizarre and disjointed.
